Who can take up an IT Profession?

Any graduate is eligible to become an IT professional

No matter what degree you have.
You just need to upgrade your **technical skills** to succeed.

Our offerings on the **XPEDIO** Learning Platform

1 Complete Web
Programming

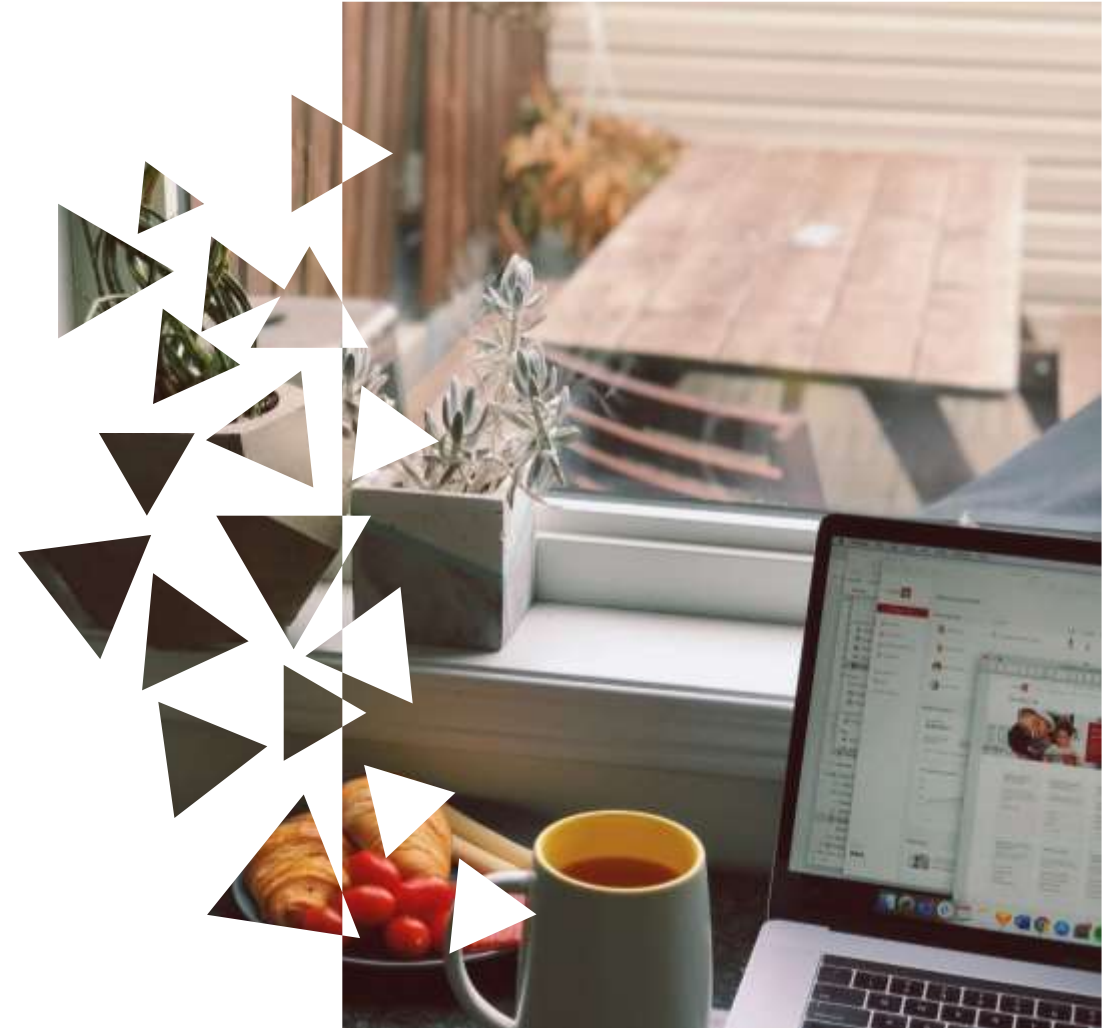

2 Complete Mobile
Programming

3 Fullstack
XpedioCE

4 Fullstack +
AI/ML + DS

Technologies you can master

python

ORACLE

mongoDB.

• Key highlights of **XPEDIO** learning programs

Learning on real time use cases

Learn all the concepts while working on a real project. This gives great understandings of subject.

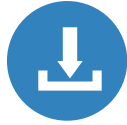

Learn in your local language

Language is no bar now for learning. We strive to teach the technologies in your local language where possible.

No prior knowledge is required

Xpedio's platform is very easy to jump in and apply, even for users without prior IT background.

Learn top technologies

We will make you skilled in the technologies which has a huge demand in the market

Support for development resources

Development requires various resources like servers, databases, payment gateways and many other tools which is not available easily in other programs.

Get lifetime ticket based support

Students will enjoy lifetime technical support if they have challenges in implementing the concepts learnt.

Learning Program **Key** points
